## National Terrorism Advisory System Current Alerts

# **SITUATION SUMMARY**

## **Butts Incident, Vegetation Fire, Napa County**

### **Fire Information:**

- Per ICS 209 dated 07/02/14 at 1800 hours (new 209 not released as of the time of this report)
- 4300 acres brush, 30% contained ([updated per Cal OES Fire Duty Officer](#))
- Residential Structures Threatened: 180, Destroyed: 2
- Other Minor Structures Destroyed: 7
- CAL FIRE IMT 5 has been activated
- Fire Management Assistance Grant (FMAG) was approved. FEMA-5057-FM-CA

### **Emergency Management:**

#### **Evacuations/Shelters**

- Approximately 200 homes in Berryessa Estates are evacuated to Middletown High School
- Approximately 50 residents from the Berryessa Estates chose to stay and were allowed to stay at their residence.
- Evacuation Shelter opened at Middletown High School. [Overnight shelter count is 17](#)

### **Critical Infrastructure**

- The Mendocino District is issuing a Boil Water Notice for the Lake Berryessa Resort Improvement water system (aka Berryessa Estates, system no. 2800526) due to a fire in the immediate area. The water system serves a population of approximately 500 people in Napa County from 179 connections.

# SITUATION SUMMARY

## Northern California:

### Modoc July Complex Modoc County (New)

#### Fire Information:

2 miles south of Dalton Reservoir

ICS-209 dated 7/3/2014 at 0730hours

**Fires in the complex:** Dalton, Dobie, Northern, Janes, 16 other fires for 74 acres.

- Acres – 1,650
- Containment- 20%

### Coleman, Vegetation Fire, Modoc County (New)

#### Fire Information:

25 miles east of Fort Bidwell, California

ICS-209 dated 7/3/2014 at 0517 hours

- Acres- 4500
- Containment- 10%
- Threat to grazing land, Sage Grouse habitat, residential ranches 1-3 miles north and south

## Southern California:

### Ranch, Vegetation Fire, Kern County (New)

#### Fire Information:

Near Lake Isabella, Kern County

ICS-209 dated 7/3/2014 at 0510 hours

- Acres- 150
- Containment- 0%
- Cooper Type 2 IMT assigned
- No Local Government commitment

# **SITUATION SUMMARY**

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought
- Mariposa County has reaffirmed their previously submitted drought proclamation

## **Significant Weather**

- Fire Weather Watch from 7/4/2014 1200 hours to 2200 hours for Modoc and Siskiyou Counties.

# WEATHER

## Week Ahead Weather Highlights

### Thursday

- Heat Impacts likely (inland valleys and deserts)
- Vulnerable populations (elderly, children, pets)

### Friday-Saturday

- Continued Heat Impacts likely Friday (inland valleys and deserts)
- Elevated Fire Danger from gusty winds near thunderstorms (SE deserts and possibly over southern mountains)
- Dust storm hazards possible over far SE CA

### Sunday-Wednesday

- Heat Impacts return Monday (inland valleys and deserts)

 High Threat  
 Moderate Threat  
 Slight Threat  
 No Discernible Threat

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

An upper level disturbance moving over northwest California will generate isolated to scattered dry thunderstorms through early this evening. The thunderstorm threat will end by Thursday as stable air moves over the region. Inland temperatures will remain at or above normal into the weekend.

#### **San Francisco Weather:**

Other than some additional sunshine at the coast today little change is expected in the weather pattern through the end of the week. A slight warming trend is anticipated this weekend as a high pressure ridge builds over the region from the desert southwest.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

Near to slightly above normal temperatures expected through Friday, then trending upwards and becoming hot by early next week. There is a slight chance of thunderstorms over the mountains Sunday through Wednesday.

#### **Hanford Weather:**

High pressure will continue to bring above normal temperatures and mainly clear skies across the region through the weekend.

## **WEATHER SYNOPSIS BY REGION: (Cont.)**

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

High pressure over the west will continue to keep inland temperatures warm to hot with increasing monsoon moisture over southeastern California. There will be a slight chance for thunderstorms over eastern Los Angeles county mountains and antelope valley Saturday afternoon and evening. Otherwise, expect mild conditions for coastal areas with patchy night through morning low clouds. A slight cooling trend likely by the middle of next week.

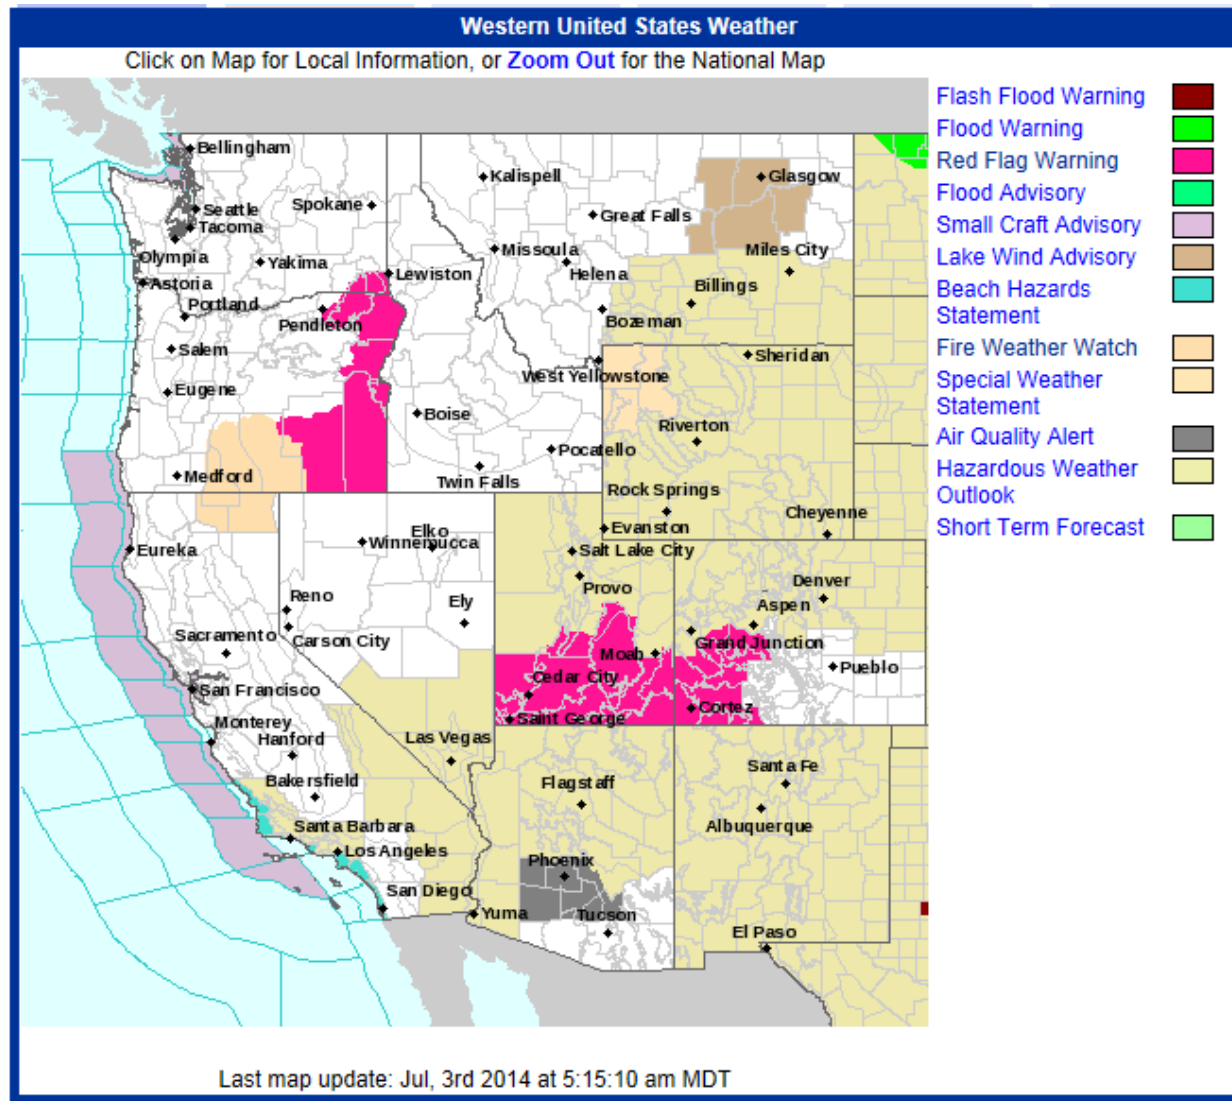

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

Fair again today with a few low clouds lingering at the beaches, and temperatures are a few degrees above seasonal averages. A little warmer for the holiday weekend, with the marine layer becoming shallower and the night and morning low clouds becoming more patchy. Sub-tropical moisture moving in from the southeast will bring chances for afternoon showers and thunderstorms over the mountains and deserts Friday through early next week. The chance for showers and thunderstorms decreases after Monday.

#### **Southeast California Weather:**

The arrival of monsoon moisture will bring cooler temperatures for the rest of the week and into the weekend, along with more clouds and increasing storm chances. Storm chances peak for the fourth of July holiday and on Saturday across south-central Arizona, and the potential for storms could reach as far west as the lower Colorado river valley and into southeast California by Friday and through the weekend. A slightly more stable and drier air mass moving into the region will then reduce storm chances from Sunday onward into at least the middle part of next week.

# STATE WEATHER MAP

**Cal OES**  
GOVERNOR'S OFFICE  
OF EMERGENCY SERVICES

# California - North Area 7 Day Significant Fire Potential

## Legend

### Fuel Dryness

-  Moist - Little or no risk for large fires.
-  Dry - Low risk of large fires in the absence of a "High Risk" event.
-  Very dry - Low/Moderate risk of large fires in the absence of a "High Risk" event.
-  Data Unavailable.

### High Risk Events

-  Wind
-  Hot and Dry
-  Lightning

| NC05 - Sacramento Valley       |              |              |              |              |              |              |              |              |
| NC06 - Northeast CA            |              | W            |              |              |              |              |              |              |
| NC07 - Northern Sierra         |              |              |              |              |              |              |              |              |
| NC08 - East Side               |              | W            |              |              |              |              |              |              |

A drier westerly flow will be present over Northern California today and the chances of afternoon and evening thunderstorms is going to be slight, most likely just over the northeast mountain areas. Temperatures in the warmest inland valleys will be around 100 for the next three days. Over the weekend, a strong high pressure ridge will move over Northern California. There will be some southerly flow to bring some moisture north along the Sierra with a chance of thunderstorms mostly south of Tahoe early next week. Strong heating will bring well above normal temperatures to inland areas with the northern Sacramento Valley expected to be near 110 Monday. The marine layer will continue to vary along the coast and become rather thin.

# FIRE ACTIVITY

## Butts Incident, Vegetation Fire, Napa County

### **Fire Information:**

- Per ICS 209 dated 07/02/14 at 1800 hours (new 209 not released as of the time of this report)
- 4300 acres brush, 30% contained ([updated per Cal OES Fire Duty Officer](#))
- Residential Structures Threatened: 180, Destroyed: 2
- Other Minor Structures Destroyed: 7
- CAL FIRE IMT 5 has been activated
- Fire Management Assistance Grant (FMAG) was approved. FEMA-5057-FM-CA

### **Local Government Equipment Committed**

- [Six Local Government Strike Teams-](#) (updated per Cal OES Fire Duty Officer)
- One Water Tender
- Two Engines

**Total Personnel Committed: 800**

### **Emergency Management:**

#### **Evacuations/Shelters**

- Approximately 200 homes in Berryessa Estates are evacuated to Middletown High School
- Approximately 50 residents from the Berryessa Estates chose to stay and were allowed to stay at their residence.
- Evacuation Shelter opened at Middletown High School; Overnight population: 17

**Cal OES**  
GOVERNOR'S OFFICE  
OF EMERGENCY SERVICES

# **FIRE ACTIVITY**

## **Butts Incident, Vegetation Fire, Napa County (Updated)**

### **Cal OES Deployments**

- Cal OES Assistant Fire Chief Salvate is on scene

### **Road Closures**

- Butts Canyon Road and Snell Valley to the north and at Aetna Springs Road to the south
- Road closures being manned by California Highway Patrol

### **Critical Infrastructure**

- The Mendocino District is issuing a Boil Water Notice for the Lake Berryessa Resort Improvement water system (aka Berryessa Estates, system no. 2800526) due to a fire in the immediate area. The water system serves a population of approximately 500 people in Napa County from 179 connections.
- Public Safety Communications has assigned three technicians. There are no specific resources being impacted at this time.

# FIRE ACTIVITY

## Butts Incident, Vegetation Fire, Napa County

### **Emergency Operation Center (EOC) Activations:**

- Napa County OES is currently at duty officer status.
- Lake County OES is currently at duty officer status.
- Cal OES Coastal Region is currently at Level 1 status.

### **Cal OES Law Enforcement Branch**

- Napa County Sheriff is not requesting any assistance but Cal OES LDO and Region 2 LE Coordinator have been in contact with the Regional Mutual Aid Coordinator (RMAC), Alameda County Sheriff, and will continue to monitor the fires progress.

### **Critical Infrastructure**

- The Mendocino District is issuing a Boil Water Notice for the Lake Berryessa Resort Improvement water system (aka Berryessa Estates, system no. 2800526) due to a fire in the immediate area. The water system serves a population of approximately 500 people in Napa County from 179 connections.
- Public Safety Communications has assigned three technicians.

# CAL OES ACTIVATIONS

## Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

### **Situational Summary**

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

On April 25, 2014 Governor Brown released an Executive Order on Friday enabling several urgent actions to be taken as the drought persists into the state's traditional dry season.

**\*\* As this rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly over the coming months. This winter's below average rain and snowfall worsens conditions in this third straight dry year.\*\***

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

OF EMERGENCY SERVICES

# CAL OES MISSIONS

## On-Going Cal OES Missions

### Closed Cal OES Missions

**2014-LAW-3971**, International Rescue Emergency Coordination Center (IERCC) advises of a SPOT activation which plotted in San Diego County near Laguna Meadow and Chico Ravine. IERCC said the device had not moved from its original location and could not provide any further information concerning the R/O. LDO contacted San Diego County Sheriff's Department (SDCSD) and relayed the SPOT activation and coordinates. At 1604 hours, SDCSD advised they had deployed their Helicopter and Ground SAR. [At 1641 hours, LDO talked with one of the emergency contacts who advised this SPOT device was being used for a military exercise and was activated in error. At 1645 hours, LDO talked with SDCSD and learned their helicopter had landed making contact with a group identifying themselves as military personnel involved in a land navigation training exercise. The group confirmed there was no emergency and deactivated the device. LDO updated IERCC with the information and confirmed the device was no longer transmitting.](#) **Mission Closed**

**2014-LAW-3961**, On behalf of Fairfield Police Department, Solano County Sheriff is requesting one Human Remains Detection (HRD) K9 to assist in a 30 year cold case homicide. [As of 2028 hours on 7/2/14, mission completed and HRD K9 team has returned to home base.](#) **Mission Closed.**

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
